

Please Download Updated Salary Worksheet

MarkB, Saturday 20 April 2024 - 10:36:23

In the process of creating the roster cut-down/contract template for 2024, I realized the player salaries in the last Salary Worksheet I posted for the players who were drafted in the 2021 rookie draft, and who must be given a contract this season or they become free agents, were incorrect. They should have been \$1.0million higher. I've corrected that in the latest Salary Worksheet posted in the League Files section of the website. Please download it and use that file as you prepare for roster cut-down/contract week in May.
