

KRFL Update

MarkB, Sunday 20 May 2018 - 17:41:58

I've uploaded a new league file and salary worksheet to reflect Chris Culler taking over the former Pittsburgh team. Chris's team will be named the Black Hills Phoenix.

I've also updated the KRFL Logo and Stadiums file to include Black Hills. Please download or re-download those files. They are found under the "Misc. Files" link on the top left hand side of the league website.

Last but not least, the Rookie Draft. The programmer is still trying to work out one last programming bug. If this gets done today or tomorrow, I'd like to run the Rookie Draft as scheduled starting May 29 and run a draft trial later this week as a refresher for long time members and a trial for the new members. IF the programmer can't get it done, I will likely delay it a week. I will keep you posted.

Mark
